Part 2640: Prescribing, Administering and Dispensing

Part 2640 Chapter 1: Rules Pertaining to Prescribing, Administering and Dispensing of Medication

Rule 1.8 Drug Maintenance Requirements. All medications maintained or stored in licensee's office must be maintained or stored in the manufacturer's or re-packager's original container. The label of any container in which drugs are maintained must bear the drug name, strength, the manufacturer's control lot number and the expiration date. Drugs that are pre-counted and prepackaged for purposes of dispensing must be identifiable as to expiration date and manufacturer's control lot number. The containers in which drug products are maintained must not be labeled in any false or misleading manner. The labeling requirements of this rule are in addition to all other applicable state and federal statutes and regulations.

A physician must not dispense out-of-date medications. Out-of-date medications must be promptly removed from current stock and stored separately until proper disposal. A physician, when dispensing a product in a manufacturer's original package or container must dispense the product with this information intact.

The medication storage and dispensing areas must be maintained in a sanitary fashion. All medications must be maintained, stored and dispensed in such a manner as to maintain the integrity of the product.

A licensee must not accept the return for subsequent resale or exchange any drugs after such items have been taken from the premises where sold, distributed or dispensed and from the control of the licensee.

Amended July 19, 2018
