
**BEFORE THE MISSISSIPPI STATE BOARD
OF MEDICAL LICENSURE**

IN THE MATTER OF THE LICENSE OF:

DOMINICK TRINCA, M.D.

ORDER REMOVING RESTRICTIONS

THIS MATTER came on regularly for hearing on March 21, 2024, before the Mississippi State Board of Medical Licensure (hereinafter “Board”), pursuant to Title 73, Chapter 25 of Mississippi Code (1972) Annotated. Dominick Trinca, M.D. (“Respondent”) seeks removal of restrictions. A hearing was held on March 21, 2024.

On May 20, 2021, the Board reinstated Respondent’s medical license with restrictions. Respondent was ordered to practice under “Direct Observation” of a preceptor for six months. To meet the requirements of “Direct Observation,” the preceptor had to personally observe all of Respondent’s medical procedures or patient encounters. Respondent was ordered to always have a chaperone present during any encounter with a female patient and was prohibited from performing pelvic or breast exams on female patients. On May 19, 2022, the Board granted Respondent’s request for advancement in the reentry-to-practice program as prescribed by the Center for Personalized Education for Professionals (“CPEP”) with restrictions. Respondent was ordered to return to the Board upon completion of the CPEP-prescribed reentry-to-practice program in its entirety and limited further advancement to the end-of-day practice subject to the approval of the Board’s executive director.

Licensee was present and represented by Honorable Philip J. Chapman. Complaint Counsel for the Board was Honorable Paul Barnes. Also present was Complaint Co-Counsel

Honorable Stan T. Ingram. Sitting as legal advisor and hearing officer to the Board was Honorable Kristen N. Love, Special Assistant Attorney General. Board members present for the proceedings were Michelle Y. Owens, M.D., President; Ken Lippincott, M.D., Kirk L. Kinard, D.O., William D. McClendon, Jr., M.D., Roderick Givens, M.D., Renia R. Dotson, M.D., and William E. Loper, III, M.D.

The Board received testimony that Respondent complied with restrictions that required a preceptor personally observe all of Respondent's medical procedures or patient encounters, a chaperone be present during any of Respondent's encounters with a female patient and Respondent perform no pelvic or breast exams on female patients. Accordingly, the Board finds the same to be well-taken.

IT IS THEREFORE ORDERED that based on his testimony and representations to the Board, Respondent's request for removal of restrictions is hereby granted. Respondent now holds an unrestricted license to practice medicine in the State of Mississippi.

IT IS FURTHER ORDERED, pursuant to Miss. Code Ann. Section 73-25-27, that a copy of this Order shall be sent by registered mail or personally served upon Dominick Trinca, M.D.

SO ORDERED, this the 21st day of March 2024.
