Rule 1.9 / Requirements for Dispensing Physicians.

For the purposes of this rule, a “dispensing physician” means any physician who dispenses to a patient for the patient's use any controlled substance, legend drug or other medication where such medication is purchased by the physician for resale to a patient whether or not a separate charge is made.

Prepackaged samples or starter packs in their original packages or containers need only have the patient name, date distributed, and physician’s name if the manufacturer’s packaging meets other requirements.

Physicians who wish to dispense must register with the Board. To obtain a certificate to dispense medications, a physician must first obtain ten (10) hours of Category 1 AMA or AOA approved CME in the area of Pharmacology and/or Dispensing of Medication.

After obtaining a certificate from the Board, the physician is then required to register with the Mississippi Board of Pharmacy and obtain the requisite permit(s) to dispense medications. The physician shall be subject to routine inspections by agents and representatives of the Board of Pharmacy, and they shall be subject to all regulations set forth by the Board of Pharmacy regarding the proper handling, labeling, and dispensing of medications.

No physician may delegate dispensing authority to another person. A physician must personally dispense the medication. For the purpose of this regulation, “personally dispense” means the physician must actually obtain the medication, prepare, count, place the same into the appropriate container and affix the appropriate label to the container.

A single physician dispenser may not share or otherwise allow other practitioners to utilize medications or inventory ordered under his or her authority. Proper transference of medications may take place pursuant to regulations set forth by the Pharmacy Board. Refills of medications may not be issued without a follow-up visit with the physician.

Rule 1.10 Prescription Guidelines–Controlled Substances.

It is the responsibility of the licensee to determine the type, dosage, form, frequency of application and number of refills of any controlled substances prescribed to a patient. The following requirements apply to all prescriptions for controlled substances written by a licensee with controlled substance prescriptive authority:
