Part 2615: Physician Assistants

Rule 1.7 | Supervising Physician Limited

Supervision means overseeing activities of, and accepting responsibility for, all medical services rendered by the physician assistant. Except as described in the following paragraph, supervision must be continuous, but shall not be construed as necessarily requiring the physical presence of the supervising physician.

New graduate physician assistants and all physician assistants whose Mississippi license is their initial license require the on-site presence of a supervising physician for one hundred twenty (120) days or its equivalent of 960 hours. If physician assistant's clerkship was completed with their supervising physician, the 120 days or 960 hours may be reduced.

The physician assistant's practice shall be confined to the primary office or clinic of the supervising physician, or any hospital(s), clinic(s) or other health care facilities within 75 miles of where the primary office is located, wherein the supervising physician holds medical staff privileges or that otherwise serves as an extension of the physician and physician assistant(s) practice. Exceptions to this requirement may be granted, on an individual basis, provided the location(s) of practice are set forth in the protocol.

Physician Assistants practicing in primary care shall have no mileage restrictions placed on the relationship between the supervisory physician and the physician assistant if the following conditions are met:

1. The protocol is between a primary care physician and a primary care physician assistant.
2. The physician is in a compatible practice (e.g., same specialty, treat the same patient population) with the physician assistant.
3. The physician and physician assistant utilize electronic medical records (EMR) in their practice, has direct access to the EMR utilized by the PA, and also utilize EMR in the formal quality improvement program.
4. The physician practices within the State of Mississippi for a minimum of twenty (20) hours per week or eighty (80) hours per month (does not include telemedicine).

The supervising physician must provide adequate means for communication with the physician assistant. Communication may occur through the use of technology which may include, but is not limited to: radio, telephone, fax, modem, or other telecommunication device.

Each primary supervisory relationship shall include and implement a formal quality improvement program which must be maintained on site and must be available for inspection by representatives of the Mississippi State Board of Medical Licensure. The quality assurance/quality improvement program shall consist of:

- A. Review by a supervisory physician of a random sample of charts that represent 10% or 20 charts, whichever is less, of patients seen by the physician assistant every

month. Charts should represent the variety of patient types seen by the physician assistant. Patients that the physician assistant and a supervising physician have consulted on during the month will count as one chart review.

- B. The physician assistant shall maintain a log of charts reviewed which include the identifier for the patient's charts, reviewers' names, and dates of review.
- C. Each physician assistant shall meet face to face, either in person or via video conferencing, with a supervisory physician once per quarter for the purpose of quality assurance, and this meeting must be documented.

Rule 1.7 | Supervising Physician Limited

Supervision means overseeing activities of, and accepting responsibility for, all medical services rendered by the physician assistant. Except as described in the following paragraph, supervision must be continuous, but shall not be construed as necessarily requiring the physical presence of the supervising physician.

New graduate physician assistants and all physician assistants whose Mississippi license is their initial license require the on-site presence of a supervising physician for one hundred twenty (120) days or its equivalent of 960 hours. If physician assistant's clerkship was completed with their supervising physician, the 120 days or 960 hours may be reduced.

The physician assistant's practice shall be confined to the primary office or clinic of the supervising physician, or any hospital(s), clinic(s) or other health care facilities within 75 miles of where the primary office is located, wherein the supervising physician holds medical staff privileges or that otherwise serves as an extension of the physician and physician assistant(s) practice. Exceptions to this requirement may be granted, on an individual basis, provided the location(s) of practice are set forth in the protocol.

Physician Assistants practicing in primary care shall have no mileage restrictions placed on the relationship between the supervisory physician and the physician assistant if the following conditions are met:

5. The protocol is between a primary care physician and a primary care physician assistant.
6. The physician is in a compatible practice (e.g., same specialty, treat the same patient population) with the physician assistant.
7. The physician and physician assistant utilize electronic medical records (EMR) in their practice, has direct access to the EMR utilized by the PA, and also utilize EMR in the formal quality improvement program.
8. The physician practices within the State of Mississippi for a minimum of twenty (20) hours per week or eighty (80) hours per month (does not include telemedicine).

The supervising physician must provide adequate means for communication with the physician assistant. Communication may occur through the use of technology which may include, but is not limited to: radio, telephone, fax, modem, or other telecommunication device.

Each primary supervisory relationship shall include and implement a formal quality improvement program which must be maintained on site and must be available for inspection by representatives of the Mississippi State Board of Medical Licensure. The quality assurance/quality improvement program shall consist of:

- A. Review by a supervisory physician of a random sample of charts that represent 10% or 20 charts, whichever is less, of patients seen by the physician assistant every month. Charts should represent the variety of patient types seen by the physician

assistant. Patients that the physician assistant and a supervising physician have consulted on during the month will count as one chart review.

- B. The physician assistant shall maintain a log of charts reviewed which include the identifier for the patient's charts, reviewers' names, and dates of review.
- C. Each physician assistant shall meet face to face, either in person or via video conferencing, with a supervisory physician once per quarter for the purpose of quality assurance, and this meeting ~~should~~must be documented.
